About

I'm Esteban, a computer engineer with more than 12 years of experience, currently living in [Urdinarrain, Entre Ríos, Argentina](#).

Lately I've been working as a **Team Lead** and [Javascript](#) senior developer in [Node.js](#) and [React](#) for different clients and projects.

I'm looking for new challenges and opportunities to continue growing professionally in roles such as **Tech Lead**, **Team Lead** or **Sr. Full Stack Developer**.

Work & Projects

These are the latest jobs, the projects, and the tools I've used.

GEUT

GEUT is an organization and a geek/tech lab, from where I participate in different projects and roles. Some of the most exciting products are: [Sher](#) and [Permanent Seeder](#).

 2018 | Present

Sher

Platform developed by [GEUT](#) for live audio streaming. In this product we have experimented and exploited the decentralized world with great passion. We managed to build a product capable of matching the services of the competition, reducing infrastructure and maintenance costs.

 2019 | Present

 [Javascript](#) [Node.js](#) [PostgreSQL](#) [GraphQL](#) [React](#) [Fastify](#) [Apollo](#) [Hypercore](#)

Sinaptia

From [GEUT](#) I worked in collaboration with [Sinaptia](#) as team leader + full stack Javascript developer in an MVP of a cybersecurity platform, called [Mekanoid](#), for the detection of incidents and automation of contingency tasks.

 2022 | 2023

 [Javascript](#) [Node.js](#) [GraphQL](#) [AWS](#) [SST](#) [React](#)

Wireline

I worked developing a collaborative text editor synchronized by CRDT, for [DXOS](#), a collaborative + decentralized development kit.

 2018 | 2020

 [Javascript](#) [Node.js](#) [CRDT](#) [Yjs](#) [React](#)

Ingenious

I participated in several projects as a developer:

- Mobile application for telemedicine.
- Real-time advertising platform on line buses.
- Online evaluation, feedback and decision-making system, aimed at organizations that use award or admission systems, among others.

 2017 | 2018

 [Javascript](#) [Node.js](#) [.NET](#) [Neo4j](#) [React](#) [React Native](#) [WebRTC](#)

Subsecretaría de Innovación y experiencia ciudadana

I worked as a developer in several projects, one of the most important was a chat-bot for citizen procedures assistance.

 2016 | 2017
